PROFILE

Hard-working and dedicated computer science Engineering student. A fast learner with strong time management and multi-tasking skills. Strong work ethic in team or individual settings to drive product success and process efficiency. Strong troubleshooting and problem solving skills with an analytical mindset. Seeking a role in a company where I can contribute my ideas and be mentored towards a successful career

PROJECTS

Military Base Patrol Rover September 2022 to December 2022

The Military Base Patrol Rover is a project that aims to improve security and surveillance, in installations using the Internet of Things (IoT). This initiative introduces a state of the art prototype rover specifically designed for base patrols, equipped with technology to avoid obstacles.

Movie Ticket Reservation September 2021 to December 2021

An application has been developed to streamline the process of booking theater tickets, utilizing registered user accounts for a seamless experience. Additionally, an independent admin account has been integrated to manage the listing of movies, facilitating convenient additions and removals as needed.

CERTIFICATIONS

- Won 1st price in district level carrom tournament
- Completed "Robotics Process Automation" in UiPath
- Introduction to cyber security
